

Rantzausminde School

SDG #13 - Fall 2021

Erasmus + project 229

GLOBAL STUDENTS:

DEVELOPING STUDENTS' GLOBAL COMPETENCE THROUGH PBL AND GAMIFICATION

Erasmus+

21st CENTURY SKILLS

Which 21st century skills have we had focus on:

Critical thinking: problem solving - which actions can the students take themselves in their everyday life?

Collaboration: Cooperation, initiative throughout the entire process

Communication: Oral presentation ... sharing actions, decisions made throughout the process in regards to design and sharing of knowledge

Creativity: Idea generation in regards to the design of climate actions. The students have taken part in every decision made about the design and creation of their product.

DRIVING QUESTIONS

1. Why do the government produce an official map showing water on land with different sea-levels
2. Teacher lecture about climate changes and what can be done
3. The students' role in 2021 ... how can we prepare them for the future?
4. Global competences ... Why do our local issues play a role in the bigger perspective?
Which actions can we do in Svendborg, Denmark which have influence in the bigger perspective?
5. Presentation for other students

ACTIVATING SESSION

Raising the green flag - a symbol of Rantzausminde School's actions toward climate changes

TAKE ACTIONS

1. Workshop for other students at school during our annual feature week about the SDGs
2. Presentations for a panel of local businessmen and politicians

PRODUCING THE "IDEA"

Presentations for the panel of local businessmen

THE FINAL MEDIA
